Region's Largest Employers

If the large employers reflect diversity, it is the smaller ones that reflect the economy's dynamism. Ever since Michael Dell started selling computers from his University of Texas dorm room, thousands of talented, creative people have started businesses in Austin. The award-winning Austin Technology Incubator, the technology commercialization programs at the University of Texas' IC2 Institute and The Capital Network, which matches investors and promising new companies, are among the area's resources for entrepreneurial companies.
